

**Our « community prayer »
during the COVID -19 crisis**

Lord, Lord, where are you?
What's happening?
Why such a confusing epidemic?
Lord, we cry out to You.

People in distress have always turned to You,
You have walked our human roads, have known our afflictions;
You washed the eyes of the blind, healed the wounds of lepers;
You don't want suffering or misfortune,
Lord, stay with us!

With our hands, You care for everyone.
With our hope, You care for everyone.
With our intelligence, You care for everyone.
With our courage, You care for everyone.

Lord, come to the aid of the sick,
these men and women, entrusted to the dedication
and the competence of the caregivers.

Lord we pray for health care professionals
who work tirelessly to save lives.
They demonstrate the same courage and hope as those who are at war,
fighting against this invisible enemy.

Inspire everyone to respect the regulations for the good of all.
May this prayer be the sign of our communion.
It is by taking care of one another
that we will be able to get through this ordeal.

We entrust ourselves to You, master of the universe,
Loving and compassionate God.
